

Application Java :

```

public pageConnexion() {
    setDefaultCloseOperation(JFrame.EXIT_ON_CLOSE);
    setBounds(450, 250, 450, 300);
    contentPane = new JPanel();
    contentPane.setBackground(new Color(30, 30, 30)); //couleur de fond
    contentPane.setBorder(new EmptyBorder(5, 5, 5, 5)); //bordure
    setTitle("Connexion");
    setSize(600, 375);
    setResizable(false);

    setContentPane(contentPane);
    contentPane.setLayout(null);
    //login
    lblLogin = new JLabel("identifiant :");
    lblLogin.setBounds(102, 81, 97, 13);
    lblLogin.setForeground(new Color(255, 255, 255)); //couleur du texte
    contentPane.add(lblLogin);

    textFieldLogin = new JTextField();
    textFieldLogin.setBounds(209, 78, 139, 19);
    contentPane.add(textFieldLogin);
    textFieldLogin.setColumns(10);
    //password
    lblPassword = new JLabel("mot de passe : ");
    lblPassword.setForeground(new Color(255, 255, 255)); //couleur du texte
    lblPassword.setBounds(102, 121, 97, 13);
    contentPane.add(lblPassword);

    passwordField = new JPasswordField();
    passwordField.setBounds(209, 118, 139, 19);
    contentPane.add(passwordField);
    // bouton "se connecter"
}

```
